CLARENCE JARANILLA

COMPUTER SCIENCE STUDENT | IT INTERN APPLICANT

09073792578 clarencejaranilla2@gmail.com Tanza, Cavite, Phillipinnes

CAREER OBJECTIVE

Aspiring IT intern with an academic background in Computer Science and foundational knowledge of Python, C++, and Arduino robotics. Interested in gaining hands-on experience in software development, improving technical skills, and contributing to real-world projects. Eager to learn, solve problems, and work collaboratively in a professional environment.

PROJECTS & RELEVANT EXPERIENCE

Smart Personal Finance Tracker | Python, SQLite

Personal Project — In Progress

- Developing a personal finance application to track income, expenses, and savings.
- Implementing database storage and transaction management using SQLite.
- Building monthly spending summaries and CSV export functionality.
- Planning to extend the application into a web-based dashboard.

ATM Simulation | Python

Personal Project

- Developed a basic ATM program with PIN verification.
- Implemented balance checking, deposits, and withdrawals.
- Used Python fundamentals such as loops, conditional statements, and variables.

Arduino Uno Robotics | Academic Project

School Project

- Participated in a robotics project using Arduino Uno.
- Applied basic programming concepts to a hands-on hardware project.
- Gained experience with basic robotics and physical computing.

EDUCATION

Lyceum of the Philippines University - Manila

STEM - ROBOTICS SHS
2021-2023

Lyceum of the Philippines University - Manila

BACHELOR OF SCIENCE IN COMPUTER SCIENCE - MAJOR SOFTWARE ENGINEERING
2023 - PRESENT

KEY SKILLS

- C++ & Python Programming
- Arduino Robotics
- Programming Logic
- Basic Debugging
- Problem Solving
- Teamwork & Adaptability
- Willingness to Learn
